ALWIN'S **SECRETARY** / THE IDEALIST

The heart of the **ALWIN'S** furniture series is our well-established, hidden table system, which has been used since the 60's as an extendable workplace in kitchens. We have since optimized the table system so that it is even more compact. This, in turn, has enabled the development of a secretary desk which meets the needs of the modern working environment – high-quality, flexible and compact.

This visionary, **THE IDEALIST**, achieves the unthinkable – a practical work and storage area in the smallest possible space. Now you can take your own mini office with you outside! With its amazing 78 cm pull-out desk and the side telescopic drawer for laptop, pens and co., **THE IDEALIST** is simply ideal! Discover the hidden potential.
